

Faculty Research Seminar Presentation (FRSP)

Topic: Real Time Project Design using Arduino

Resource Person: Mr.T.Pasupathi, Assistant Professor / ECE

King's College of Engineering, Punalkulam, Pudukkottai.

Objective: To create an accessible way for software developers to enter the world of Microcontroller programming.

Outcome: To understand the concepts of Microcontroller programming using Arduino .which is useful to design real time projects.

SAMPLE SCREEN SHOTS
